Painting by Timothy Chambers

Tim in studio painting *Please Don't Look...Away*

Camera view of scene

Tim's view and rendition
Sun Behind Overcast Skies

Woman Combing Her Hair
1886

Woman Drying her Hair
1905

Paintings by Edgar Degas

Water Lily Pond, 1899

Saule Pleureur, 1918

Paintings by Claude Monet

normal vision (1899)

with cataracts (1918)

This is what the color scale looks like to me when my eyes are comfortable in interior window light on a bright day:

Comfortable, bright
interior window lighting

Stepping from indoors
out to bright sunlight

Comfortable, bright
interior window lighting

Stepping from indoors
out to bright sunlight

Comfortable, bright
interior window lighting

Stepping from outdoors to
normal interior lighting

Tim painting, sharing how he sees the scene through his Usher eyes.

USH Steeple, Bright Sun

How outdoor light may affect those with Usher syndrome:

Twilight

Sun Hiding

Sun Peeking

Sun High

Sun Behind Overcast Skies

Sun Peeking (In Full View)

Academy St. Roofs, Midday

A New Day

I am honored to share my work at the 12th Annual USH Connections Conference. In addition to sharing how a person with Usher experiences light and color, you'll find original paintings and prints for sale to assist the Coalition.

I have been a full-time professional portrait painter for the past thirty years, despite Usher syndrome. You can view my portraits and my story at timothychambers.com.

A generous portion of all sales will be donated to the Coalition to help find and connect the global Usher syndrome community, moving us all closer to treatments and a cure. See the Usher Syndrome Coalition website for details!
